

The Climb

Every business is a mountain.
Nobody climbs alone.

Business Builders
By Workplaces

Illustrative example - your own camps are calculated together, in the room.

How the climb works

1 Your shape

You score money, time, systems, people. The shape shows where the chaos lives.

2 Your camp

Your crew size sets your camp. Every camp has known challenges you are not imagining.

3 Your route

Your revenue goal sets the camp you are climbing to, and what changes along the way.

4 Your guide

Two sessions a month, one in person. We climb with you, camp to camp, until it runs without you.
